

*Dear parents and pupils
of the Sunday School at St Volodymyr Cathedral,*

The Sunday School Lesson of March 1st is devoted to ability to analyze and to generate right solutions in the life situations, ability to seek for forgiveness and to forgive, to support others and to ask for support, to appreciate family values, both those of our Christian universal family and of our small church – our home family.

On this lesson the children will

- Watch the modern version of the Prodigal Son parable. How would it look like if it happens nowadays?
- Have brainstorming session resolving problems that merged in the prodigal son family;
- Have Prodigal Son Word search, True-or-False exercise, Crosswords, Anagram, Gameboard play in order to review the parable lessons. I consider such games as a nice way to review the ideas of the lesson while the children think that they are playing. Games help to correct the pupils' understanding of the concepts which I try to convey to them;
- The youngest children will draw a picture of prodigal son and will make pigpens from craft sticks, cut out pink pigs from construction paper and label each animal with a sin that led the young man to the pigpen.

I hope to see you on the Sunday School Lesson.

*With love in Christ
Sister Bohdana*

For this my son was
dead and is alive
again; he was lost and
is found.

Luke 15:24
